Introduction to the financial statements

Information on the Company

The Company (under the name Dom Maklerski IPOPEMA S.A.) was established on March 2nd 2005 under Notarial Deed No. Rep. A 2640/2005, which included also the Company's Articles of Association, prepared by Janusz Rudnicki, Notary Public of Warsaw, ul. Marszałkowska 55/73, suite 33, Warsaw, Poland. According to the Articles of Association, the Company has been established for indefinite time.

The Company's registered office is at ul. Próżna 9, Warsaw, Poland.

Pursuant to a decision issued by the District Court for the Capital City of Warsaw, 19th (currently 12th) Commercial Division of the National Court Register, on March 22nd 2005 the Company was entered into the Register of Entrepreneurs of the National Court Register under KRS No. 0000230737.

The Company was assigned Industry Identification Number (REGON) 140086881.

The Company's business was classified in accordance with the Polish Classification of Business Activities (PKD) as:
(i) PKD 66.12.Z – Security and commodity contracts brokerage,
(ii) PKD 64.99.Z – Other financial services not elsewhere classified, except insurance and pension fund services,
(iii) PKD 70.22.Z – Business and other management consultancy activities in the scope defined under a decision.

The Company conducts brokerage activity on the basis of a brokerage licence granted by the Polish Securities and Exchange Commission (currently, the Polish Financial Supervision Authority) on June 30th 2005, and on the basis of an additional licence, for the preparation of investment and financial analyses as well as recommendations, granted by the Polish Financial Supervision Authority on June 28th 2010. The additional licence had to be obtained in connection with amendments to applicable laws and regulations (prior to the amendments, such activities had not been classified as brokerage activities requiring a licence).

The name of the Company was changed from Dom Maklerski IPOPEMA S.A. to IPOPEMA Securities Spółka Akcyjna under Resolution No. 5 of the Extraordinary General Meeting held on August 10th 2006.

All Company shares (a total of 29,937,836 shares) outstanding as at the date of publication of these financial statements are admitted to trading on the regulated market operated by the Warsaw Stock Exchange and have been introduced to trading on the main market. May 26th 2009 was the first listing date.

Going concern assumption

These financial statements were prepared on the assumption that the Company would continue as a going concern in the foreseeable future, that is over 12 months after the balance-sheet date. As at the date of approval of these financial statements, no circumstances were identified which would threaten the Company's continuing as a going concern, as a result of voluntary or involuntary discontinuation or material limitation of its existing operations, within at least 12 months from the balance-sheet date, that is December 31st 2013.

Composition of the Management Board and the Supervisory Board

As at the balance-sheet date and the date of these financial statements, the composition of the Company's Management Board was as follows:

Jacek Lewandowski – CEO and President of the Management Board,

Business combinations

In the periods covered by these financial statements, there were no business combinations as referred to in Art. 44.b and Art. 44.c of the Polish Accountancy Act.

Correction of errors and corrections resulting from qualifications contained in auditor's opinions

No corrections of errors were made in these financial statements.

Applied accounting standards, methods of valuation of assets, equity and liabilities (including depreciation/amortisation), measurement of profit (loss):

1) Cash and cash equivalents

Cash and cash equivalents disclosed in the balance sheet include cash in hand and at banks, as well as short-term deposits.

The balance of cash and cash equivalents shown in the statement of cash flows comprises the same cash and cash equivalent items.

Cash is measured at nominal value.

2) Property, plant and equipment, and intangible assets

Property, plant and equipment, and intangible assets are measured at cost less depreciation/ amortisation charges and impairment losses, if any.

Costs incurred after a given asset has been placed in service, such as costs of maintenance or repair, are charged to the income statement when incurred.

Depreciation/amortisation is charged using the straight-line method over the estimated useful life of an asset. The depreciation/amortisation rates applied by the Company are presented in the table below:

Type of asset	Depreciation/amortisation rate
Plant and equipment	10%
Office equipment	20%
Computers	30%
Leasehold improvements	14.29%
Intangible assets	20%–50%

If the initial value of an item of property, plant and equipment or an intangible asset is less than PLN 3,500, such asset is expensed on a one-off basis. However, if required by the Company's interest, items of property, plant and equipment, and intangible assets with the value lesser than PLN 3,500 may be entered into the register of non-current assets.

An item of property, plant and equipment or an intangible asset may be derecognised from the balance sheet following its disposal or if no further economic benefits are expected to be derived from its further use. Any income and costs resulting from a given asset being derecognised from the balance-sheet, are charged to the income statement in the period the asset was derecognised.

Residual values, useful lives and methods of depreciation /amortisation of assets are reviewed and, if necessary, adjusted at the end of each financial year.

3) Receivables

Current receivables

Current receivables include all receivables from clients, related entities, banks conducting brokerage activity, other brokerage houses and commodity brokerage houses under executed transactions, as well as all or part of receivables related to other items, which are not classified as financial assets, in each case maturing within 12 months after the balance-sheet date.

Receivables are measured at amounts receivable, subject to the prudent valuation principle. The amount of receivables is subsequently decreased by impairment losses, if any, which are recognised based on the analysis of collectability of receivables from individual debtors.

Impairment losses on receivables are estimated in the event of an increase in the risk that it will not be possible to collect the full amount receivable. Taking into consideration the nature of its business, the Company has adopted the following rules for estimating impairment losses on past due receivables:

- for receivables past due by up to six months – no impairment loss is recognised,
- for receivables past due by 6 months to 1 year – impairment loss of 50% of the receivables amount is recognised,
- for receivables past due by more than 1 year – impairment loss of 100% of the receivables amount is recognised.

The Company may also recognise impairment losses based on an individual assessment of a receivable.

Impairment losses on receivables are charged to other expenses and disclosed in the income statement under increase in impairment losses on receivables. The cost connected with recognition of impairment losses at the time of confirming that particular receivables are uncollectible is a tax-deductible expense; in any other case, such cost is not tax-deductible.

Under receivables, the Company also discloses receivables under lease of property, plant and equipment and intangible assets to IPOPEMA Business Services. The lease agreement meets the definition of finance lease. The value of the leased out assets was PLN 145 thousand as at December 31st 2013 (December 31st 2012: PLN 272 thousand), including non-current receivables of PLN 14 thousand (December 31st 2012: PLN 145 thousand).

Current receivables from clients, current receivables from banks conducting brokerage activities and other brokerage houses, current liabilities to clients and current liabilities to banks conducting brokerage activities and other brokerage houses

Current receivables from clients, current receivables from banks conducting brokerage activities and other brokerage houses, current liabilities to clients and current liabilities to banks conducting brokerage activities and other brokerage houses arise in connection with the executed transactions of purchase and sale of securities which have not yet been cleared at the clearing houses due to the transaction settlement procedure (T+3). In the case of purchase transactions on stock exchanges made to execute orders placed by clients whose accounts are kept by custodian banks, the Company recognises current liabilities towards banks conducting brokerage activities and other brokerage houses (parties to the market transactions)* and current receivables from the clients for whom the purchase transactions were executed. In the case of sale transactions executed on stock exchanges to execute orders placed by clients whose accounts are kept by custodian banks, the Group discloses current receivables from banks conducting brokerage activities and other brokerage houses (parties to the market transactions)* and current liabilities towards the clients for whom the sale transactions were executed.

** Pursuant to Art. 45h of the amended Act on Trading in Financial Instruments, in the case of transactions executed on the WSE, KDPW CCP (the clearing agent) assumed the rights and obligations of the parties to the market transactions.*

Non-current receivables

Non-current receivables are receivables whose terms to maturity are longer than 12 months from the balance-sheet date.

4) Financial instruments

Financial instruments are classified into the following categories:

- financial assets,
- financial assets held for trading,
- loans and receivables,
- financial assets held to maturity,
- financial assets available for sale.

2. Financial liabilities

- financial liabilities held for trading,
- other financial liabilities.

Financial assets and liabilities held for trading

Financial assets and liabilities held for trading are financial instruments acquired for the Company's own account in connection with executed transactions, and are measured at fair value, determined by reference to their market value as at the balance-sheet date. For the purpose of the measurement, the Company takes into account closing prices quoted by the Warsaw Stock Exchange ('WSE') and Budapest Stock Exchange ('BSE') on the last business day of the reporting period. Instruments not traded on stock exchanges (FX forward, FX swap) are measured using interest rates and currency exchange rates as at the balance-sheet date. Changes in the value of financial instruments held for trading are recognised under income from or cost related to financial instruments held for trading, as appropriate.

Financial instruments held for trading include shares in companies listed both on the Warsaw Stock Exchange (the 'WSE') and the Budapest Stock exchange (the 'BSE'), but also equity- and index-based derivatives (options and futures traded on the WSE, FX forwards and FX swaps). In the category of financial liabilities held for trading, the Company recognises derivative financial instruments. Both the financial assets and liabilities held for trading are listed on the Warsaw Stock Exchange or the Budapest Stock Exchange, with the exception of forward contracts and FX swaps entered into by the Company.

Financial assets are carried as at the contract date at cost, i.e. at the fair value of expenses incurred or other assets transferred in return, whereas financial liabilities are carried as at the contract date at the fair value of the amount or other assets received. When determining the fair value as at the contract date, the Company takes into account transaction costs.

The Company does not apply hedge accounting.

Loans advanced and receivables

Loans and receivables include financial assets arising when the Company delivers cash directly to the counterparty, irrespective of the maturity date of such assets. Loans advanced and receivables are measured at adjusted cost, which is estimated using the effective interest rate method. Non-interest bearing current receivables are measured at amounts receivable, subject to the prudent valuation principle. Current receivables include mainly bank deposits, cash and loans advanced. Loans with terms of three and five years advanced to IPOPEMA Securities' employees and associates are classified under 'Loans advanced'. With respect to loans which may be amortised (three-year and five-year loans), the Group applies straight-line amortisation to the principal and accrued interest. Amortisation charges are disclosed under finance costs. Loans advanced to a subsidiary are also recognised under this item.

Financial assets held to maturity

Financial assets held to maturity are investments with fixed or determinable payments and fixed maturities that the Company intends and is able to hold to maturity. Financial assets held to maturity are measured at amortised cost with the effective interest rate method.

Financial assets held to maturity are classified as non-current assets if their terms to maturity are longer than 12 months from the balance-sheet date. The Company had no financial assets held to maturity in this or previous year.

Financial assets available for sale

All other financial instruments are classified as financial assets available for sale. Financial assets available for sale are carried at fair value (without deducting the transaction costs), determined by reference to their market value as at the balance-sheet date. Under financial assets available for sale the Company recognises investment certificates and, pursuant to the regulation on special accounting policies for brokerage houses, shares in subordinated entities.

Investment certificates are carried at fair value based on the net asset value per certificate as published by the investment fund. Valuation results increase or decrease (as appropriate) the revaluation capital reserve.

Shares in subsidiaries are measured at cost less impairment.

Other financial liabilities

In this category, the Company classifies mainly bank borrowings, including overdrafts. Other financial liabilities are measured at amortised cost.

Financial instruments are derecognised when the Company loses control over the contractual rights constituting the given financial instrument; that usually happens when an instrument is sold or when all the cash flows attributable to an instrument are transferred onto an independent third party.

Acquisition and sale of financial instruments are recognised as at the transaction date. On initial recognition, they are measured at cost (fair value), including the transaction costs.

5) Impairment of financial instruments

As at each balance-sheet date the Company evaluates whether there are objective indications of impairment of a financial instrument or a group of financial instruments.

6) Prepayments and accrued income

Current

Costs incurred in the current reporting period but related to future periods are recognised under current prepayments and accrued income, provided the costs will be settled within 12 months from the balance-sheet date.

Non-current

Deferred tax assets and other prepayments and accrued income which will be settled later than 12 months from the balance-sheet date.

Deferred tax asset

Deferred tax assets are recognised in relation to all deductible temporary differences to the extent it is probable that the Company will generate taxable income sufficient to use the differences.

7) Liabilities

Current liabilities

Current liabilities are liabilities which are payable within 12 months from the balance-sheet date. Current liabilities include all liabilities to clients, liabilities to related entities, liabilities to banks conducting brokerage activities, other brokerage houses and commodity brokerage houses under executed transactions, liabilities to the National Depository for Securities and exchange clearing houses and liabilities to entities operating regulated securities markets, as well as all other liabilities not classified as non-current liabilities, accruals and deferred income or provisions for liabilities.

Liabilities are measured at amounts payable. Information on recognition of current liabilities under executed transactions is presented above in the description of current receivables.

The recognition of current liabilities under executed transactions is discussed in Section 3 above.

Non-current liabilities

Non-current liabilities are liabilities which are payable within more than 12 months from the balance-sheet date.

8) Provisions, accruals and deferred income

Accruals and deferred income

Costs attributable to the period but not yet incurred are recognised as accruals and deferred income, and disclosed under current liabilities.

Provisions include:

a) deferred tax liability,
b) other provisions.

Deferred tax liability

Deferred tax liability is recognised in relation to all taxable temporary differences.

Other provisions

Provisions are recognised if the Company has a legal or constructive obligation resulting from a past event and when it is certain or highly probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Other provisions are presented in the balance-sheet broken down into non-current and current provisions. Provisions are classified as non-current or current depending on when a given item will become an actual liability (within 12 months or more than 12 months from the balance-sheet date).

9) Equity

Equity comprises the following items:

- share capital,
- reserve funds,
- revaluation capital reserve,
- retained earnings (deficit),
- net profit (loss).

Equity is recognised at par value, broken down into its particular components, as stipulated by applicable laws and the Company's Articles of Association.

Share capital is recognised in the amount specified in the Company's Articles of Association and in the relevant National Court Register entry. Reserve funds are created pursuant to the regulations of the Commercial Companies Code. They comprise earnings retained by the Company under a relevant resolution of the General Meeting, and share premium.

Revaluation capital reserve is created from revaluation of financial assets available for sale – investment certificates.

Retained earnings / (deficit) comprises profit (loss) for the previous years.

Net profit (loss) comprises current financial year profit / (loss).

The Company is required to calculate the amount of regulatory capital under the Regulation of the Minister of Finance on the scope and detailed rules for determination of the total capital adequacy requirement, including individual capital adequacy requirements, for brokerage houses and on the maximum ratio of borrowings and debt instruments in issue to the amount of capitals. The Company's regulatory capital is the sum of Tier 1 (core) capital and Tier 2 (supplementary) capital (explained below), less the value of shares in banks, other brokerage houses, foreign investment firms, credit and financial institutions, as well as subordinated loans granted to such institutions, which are included in their respective capitals.

The core capital established for the purpose of computing regulatory capital, comprises:

- share capital and statutory reserve funds,
- other capital reserves,
- other items of core capital, i.e. retained earnings or current period's profit,
- items reducing core capital, i.e. called-up capital not paid, treasury shares held by the brokerage house (measured at cost less impairment losses), goodwill, intangible assets other than goodwill, retained deficit (including retained deficit pending approval) and loss for the current period.

Tier 2 (supplementary) capital of the brokerage house comprises:

- revaluation capital reserve created under other regulations,
- subordinated liabilities with original terms to maturity of five years or more, in the amount which is reduced at the end of each of the last five years of the agreement term by 20%,
- liabilities under securities with unspecified maturity and other financial instruments with unspecified maturity.

10) Recognition of revenue

Revenue is recognised to the extent it is probable that the Company will obtain economic benefits which can be reliably measured.

11) Accrual basis of accounting and matching principle

In determining its net profit (loss), the Company takes into account all revenues and related expenses attributable to a given period, irrespective of the date of payment.

In order to match revenues to related expenses, expenses or revenues relating to future periods and expenses attributable to a given period which are yet to be incurred are posted under assets or liabilities, as applicable, of the given period. This means that expenses are accounted for on an accrual basis. Expenses not yet incurred in a given period are covered by provisions.

12) Determination of net profit (loss)

Components of net profit (loss)

According to Appendix 1 to the Regulation of the Minister of Finance on special accounting principles for brokerage houses of December 28th 2009 (Dz.U. of 2009, No. 226, item 1824, as amended), net profit (loss) comprises:

- Profit (loss) on brokerage activities,
- Operating profit (loss),
- Profit (loss) before extraordinary items,
- Pre-tax profit (loss),
- Income tax and other mandatory decrease of profit (increase of loss).

Method of determination of profit (loss) on brokerage activities

Profit (loss) on brokerage activities is the difference between:

revenue from brokerage activities, comprising revenue:

- from fees and commissions:

a) from transactions in financial instruments made in the name of the Company but for the account of the party placing an order,
b) from offering financial instruments,
c) from accepting orders to buy or redeem investment fund units,
d) other,

- other revenue:

a) from maintenance of client's securities accounts and cash accounts,
b) from offering financial instruments,
c) from maintenance of registries of acquirers of financial instruments,
d) from discretionary management of third-party securities portfolios,
e) from professional advisory on trading in financial instruments,
f) from representation of banks conducting brokerage activities and brokerage houses on a regulated market and commodity exchanges,
g) other,

and costs of brokerage activities, comprising costs incurred to generate revenue from the Company's business activities. The Company uses by-nature format for expenses. Costs by nature are recorded under Group 4, expenses by nature and their settlement. The costs include:

- affiliation,
- fees payable to regulated markets, commodity exchanges, the National Depository for Securities and exchange clearing houses,
- fees payable to commercial chamber,
- salaries and wages,
- social security and other benefits,
- employee benefits,
- raw material and consumables used,
- costs of maintenance and lease of buildings,
- other expenses by nature,
- depreciation and amortisation expenses,
- taxes and other public charges,
- commissions and other charges,
- other.

Revenue denominated in foreign currencies is translated into the złoty at the mid-exchange rate quoted by the National Bank of Poland on a day preceding the revenue generation date.

Method of determination of operating profit (loss)

Operating profit (loss) comprises the profit (loss) on brokerage activities adjusted for:

- gain (loss) on transactions in financial instruments held for trading,
- gain (loss) on transactions in financial instruments held to maturity,
- gain (loss) on transactions in financial instruments available for sale,
- other income,
- other expenses,
- difference between provisions for and impairment losses on receivables.

Other income and operating expenses are income and expenses related indirectly to the Company's operations, including in particular income and expenses related to:

- disposal of property, plant and equipment, and intangible assets,
- impairment losses on property, plant and equipment, and intangible assets,
- compensation, penalties and fines,
- free-of-charge transfer or receipt, including by way of donation, of assets, including cash, for purposes other than acquisition or production of intangible assets,
- other.

Method of determination of profit (loss) before extraordinary items

Profit (loss) before extraordinary items comprises operating profit (loss) adjusted for:

- finance income,
- finance expenses.

The Company’s finance income includes interest on deposits, interest on loans advanced, other interest and foreign-exchange gains. Interest income is recognised in the income statement as it accrues.

The Company classifies as finance expenses in particular: borrowing costs, interest on borrowings, other interest, and foreign-exchange losses.

Method of determination of pre-tax profit (loss)

Pre-tax profit (loss) comprises profit (loss) before extraordinary items adjusted for extraordinary gains and losses.

The Company recognises extraordinary gains and losses pursuant to Art 3.1.33 of the Polish Accountancy Act. Extraordinary gains and losses are gains and losses arising from unpredictable events, outside the course of the Company's operations, and not related to the general operating risk.

Method of determination of net profit (loss)

Net profit (loss) comprises pre-tax profit (loss) adjusted for income tax and other mandatory decrease of profit (increase of loss).

Income tax

Income tax affecting net profit (loss) for a given reporting period includes:

- current income tax,
- deferred income tax.

Current income tax

Current tax assets and current tax liabilities for the current period and for previous periods are measured at the amount of the expected payment due to the tax authorities or expected refund from the tax authorities, as appropriate, with the use of tax rates and based on fiscal regulations legally or actually binding as at the balance-sheet date.

Deferred income tax

For the purposes of financial reporting, the Company recognises deferred tax using the balance-sheet liability method in relation to temporary differences recorded as at the balance-sheet date between the value of assets and liabilities computed for tax purposes and their carrying amounts disclosed in the financial statements. Deferred income tax disclosed in the income statement is the difference between deferred tax liabilities and assets as at the end and as at the beginning of the period.

13) Statement of cash flows

The statement of cash flows is prepared using the indirect method.

14) Translation of foreign-currency items

Transactions in currencies other than the Polish złoty are accounted for as at the transaction date, using the following exchange rates:

1) the exchange rate actually applied on the transaction date, resulting from the nature of the transaction – in the case of sale or purchase of foreign currencies and payment of receivables or liabilities,

2) the mid-exchange rate quoted for a given currency by the National Bank of Poland (the 'NBP') on the day preceding the transaction date – in the case of payment of receivables or liabilities, if the application of the exchange rate specified in item 1 is not justified, and in the case of other transactions.

As at the balance-sheet date, monetary assets and liabilities denominated in currencies other than the Polish złoty are translated into the złoty at the mid-exchange rate quoted by the NBP for a given currency, in effect at the end of the reporting period. Currency translation differences are disclosed as finance income or costs, as appropriate.

The following exchange rates were applied for the purposes of balance-sheet valuation:

Currency	Dec 31 2013	Dec 31 2012
USD	3.0120	3.0996
EUR	4.1472	4.0882
HUF 100	1.3969	1.3977

Changes in estimates

In 2013, there were no changes in estimates other than the changes in provisions for receivables, depreciation/amortisation, and impairment losses on receivables, as discussed in Notes 2, 9, 11 and 16.

Changes in applied accounting policies

Within the period covered by these financial statements, there were no changes in the applied accounting principles.

Comparability of the reported data

These financial statements were presented in a manner ensuring their comparability by applying uniform accounting policies in all the presented periods, consistent with the accounting policies applied by the Company.

Indication and explanation of differences in amounts disclosed in these financial statements and comparative data prepared in accordance with Polish Accounting Standards, and amounts that would be disclosed in financial statements and comparative data prepared in accordance with IAS respectively

If the Company had prepared its separate financial statements in accordance with IAS, it would have recognised the cost of incentive schemes, discussed in Note 59, in the financial statements for 2013 and 2012. In separate financial statements prepared in accordance with the provisions of the Polish Accountancy Act, the cost of incentive schemes is not recognised, as the Polish Accountancy Act stipulates no such requirement. However, the cost is recognised in the Group's consolidated financial statements, which the Group is required to prepare in compliance with the IFRS.

Recognition of the cost of incentive schemes would increase the cost of salaries and wages and the reserve funds by the amount of the cost. This would not affect the value of net assets but would have an effect on their structure.

Except for the difference connected with the cost of incentive schemes discussed above, there are no material differences related to the applied accounting policies.

Notes to the financial statements

Significant events relating to past years and disclosed in the financial statements for the financial year

No material events relating to the previous years occurred in the period covered by these financial statements.

Events subsequent to the balance-sheet date, not disclosed in the financial statements

All events relating to the reporting period were disclosed in the accounting books and financial statements for the period January 1st–December 31st 2013. No events occurred after the balance-sheet date which should have been but were not disclosed in the accounting books for the reporting period.

Changes in accounting policies and in the preparation of the financial statements

In 2013 and 2012, the Company did not change the accounting policies and the rules of preparing the financial statements.

Agreements not disclosed in the balance sheet

In 2013 and 2012, the Company disclosed all agreements which had an effect on data presented in these financial statements.

Correction of errors

In 2013 and 2012, the Company did not correct any errors in the financial statements.

Operating segments

The Company does not distinguish separate operating segments within its structure and forms a single segment. IPOPEMA Securities S.A.'s segment comprises brokerage activities, as well as business and management consultancy services. Information disclosed in these financial statements comprises information regarding that operating segment.

No geographical segments are reported by the Company, as its revenue is generated mostly in Poland. ** The item 'Equities' relates entirely to shares listed on the Warsaw Stock Exchange. Financial instruments held for trading are measured at fair value, determined by reference to their market value as at the balance-sheet date. For the purpose of the measurement, the Company takes into account closing prices quoted by the Warsaw Stock Exchange on the last business day of the financial year. Changes in the value of financial instruments held for trading are recognised under income from or cost related to financial instruments held for trading, as appropriate. As at the balance-sheet date, the Company held 34 shares with the total carrying amount of PLN 4 thousand. All shares are traded on the Warsaw Stock Exchange. As at December 31st 2012, the Company held 17,151 shares with the total carrying amount of PLN 292 thousand.*

*** The item 'Derivatives' comprises positive results of the valuation of FX forward contracts and FX swaps (valuation gains). Valuation of contracts was presented separately for assets and liabilities. Valuation losses were recognised under other liabilities (see Note 13). Derivatives disclosed in these financial statements as at December 31st 2013 comprise one FX forward. As at December 31st 2012, the Company had 29 futures contracts and one FX swap. As at December 31st 2013, the carrying amount of futures contracts was PLN 0 (December 31st 2012: PLN 121 thousand), while the carrying amount of forwards was PLN 213 thousand (asset) (December 31st 2012, FX swaps: PLN 38 thousand (asset)).*

In 2013, the Company generated PLN 7 thousand in income from transactions executed as part of its dealing activities, and incurred costs of PLN 26 thousand on such transactions (2012: PLN 803 thousand and PLN 678 thousand, respectively). The results were recognised as income from and cost related to financial instruments held for trading.

Financial assets

In 2013 and in 2012, the policies for measurement of financial assets at fair value and classification of financial assets did not change. The Company did not recognise any impairment losses, nor did it reverse impairment losses recognised in previous periods, except for the changes in impairment losses on receivables.

** In accordance with Art. 45h of the amended Act on Trading in Financial Instruments, the following balance sheet items: current liabilities to banks conducting brokerage activities, other brokerage houses and commodity brokerage houses under executed transactions, where they relate to transactions executed on the WSE, include liabilities to KDPW CCP (the agent clearing the transactions which has assumed the rights and obligations of the parties to the transactions).*

** Methods of valuation of financial liabilities (valuation of futures contracts) are described in Section 4 in the introduction to the financial statements.*

As at December 31st 2013, the Company's liabilities under borrowings related to its brokerage business amounted to PLN 2,589 thousand (December 31st 2012: PLN 25,213 thousand). The liabilities result from two working-capital overdraft facility agreements executed on July 22nd 2009 with Alior Bank S.A. The facilities are used to finance payment of liabilities to the National Depository for Securities in connection with the brokerage activities and are renewed on an annual basis – the term of the two agreements expires on July 18th 2014:

1. Revolving credit facility of up to PLN 10m. The purpose of the facility is to finance payment of the Company's liabilities to the National Depository for Securities in respect of the settlement of transactions concluded by the Company on the regulated market as part of its brokerage business. The facility is secured with a blank promissory note with a promissory note declaration, a power of attorney over accounts held with the bank, and a PLN 4m security deposit placed in a term deposit account as joint security, securing also the credit facility specified in item 2.
2. Revolving credit facility of up to PLN 30m. The purpose of the facility is to finance the payment of the Company's liabilities resulting from its membership in the Stock-Exchange Transactions Settlement Guarantee Fund operated by the Polish National Depository for Securities. The facility is secured with a blank promissory note with a promissory note declaration and a power of attorney over accounts held with the bank. As stated in item 1 above, both credit facilities are jointly secured by a PLN 4m security deposit.

Defaults under credit facilities or loans or breach of material credit covenants, with respect to which no remedial action was taken by the end of the reporting period

None

Bonds

In 2013, the Company issued registered bonds with a total nominal value of PLN 10,000, maturing in 2013–2015 (depending on the series). The total amount of liabilities payable by the Company on redemption of the bonds will not exceed the bonds' par value and is not significant to the Company. The bond issues are related to the Variable Component Remuneration Policy implemented at the Company pursuant to the Minister of Finance's Resolution on the rules for establishment of a variable component remuneration policy for persons holding management positions at brokerage houses, dated December 2nd 2011. For more details, see the updated version of document 'Disclosure of information on IPOPEMA Securities S.A.'s capital adequacy', available on the Company's website. In 2013, the Company redeemed PLN 4 thousand worth of bonds.

Note 13a

Objectives and principles of financial risk management

Operations on capital markets inherently involve various risks which may have a material effect on the Company's operations, as outlined below. All types of risk are monitored and controlled with respect to the profitability of the Company's business and the level of capital necessary to ensure security of executed transactions in the context of the capital adequacy requirements.

Credit risk

The Company is exposed to credit risk understood as the risk that the Company's debtors may fail to fulfil their obligations and thus cause losses to the Company. In view of the above, the credit risk was accounted for in the financial statements through recognition of impairment losses. Receivables by maturity and amounts of recognised impairment losses are presented in Note 2.

In the Management Board's opinion, there is no significant concentration of credit risk as the Company renders its services to a large number of clients.

With respect to the Company's other financial assets, such as cash and cash equivalents, financial assets available for sale and certain derivatives, credit risk is related to the potential inability of a counterparty to meet its payment obligation, and the maximum exposure to the risk is equal to the carrying amount of those assets. Credit risk connected with bank deposits, financial instruments, derivatives and other investments is considered low as the Company executed the transactions with institutions of sound financial standing.

Credit risk – value at risk

As at December 31st 2013, the value at risk under credit risk for instruments carried as loans advanced and receivables (specified in Note 8) was PLN 42,305 thousand (December 31st 2012: PLN 248,563 thousand), while for instruments held for trading, the amount was PLN 5 thousand (December 31st 2012: PLN 176 thousand).

Credit risk related to financial instruments held for trading is low as such instruments include shares and futures transactions executed on the Warsaw Stock Exchange, with the exception of forward contracts and FX swaps executed by the Company. Similarly, credit risk related to deposits is considered low, because the agreements are executed with banks that have stable financial position.

Interest rate risk

The Company has liabilities under working capital facilities on which interest accrues at variable rates. This gives rise to the risk that interest rates may increase over their level as at the agreement date. Moreover, the Company invests free cash in variable-rate assets, which may result in reduced return on the investment if interest rates decline. For information on assets and liabilities subject to the interest rate risk, see Note 1 and Note 13.

Given that in the reporting period the Company held both assets and liabilities bearing interest at variable rates (which mitigated the risk) and that interest rates moved only slightly in the past periods and no dramatic changes in interest rates are expected in the following reporting periods, the Company did not hedge its exposure to the interest rate risk, as in its opinion the risk is not significant.

Currency risk

The Company is exposed to limited currency risk as it incurs most of its operating expenses in the złoty. Currency risk is primarily related to changes in the USD, EUR, HUF and CZK exchange rates, however both in 2013 and 2012 most of operating expenses were incurred in the złoty. The Company advanced a foreign currency loan and also holds foreign currency cash at bank. In order to minimise the currency risk, the Company entered into an FX contract which mitigates the results of possible exchange rate fluctuations. The Company did not have any foreign-currency borrowings, however due to its operations in Hungary and in the Czech Republic it uses foreign currencies (HUF and CZK) to settle stock-exchange transactions and other costs of operations in those markets (including fees payable to the clearing bank and the Czech and Hungarian stock exchanges, as well as the costs of associates). Owing to the nature of the transaction settlements (with the Company acting as an intermediary), the share of this risk in the overall risk is immaterial.

Price risk

The Company holds financial instruments which are traded on a regulated market: the Warsaw Stock Exchange (WSE), except for FX swaps and forwards entered into by the Company. The Company is exposed to the risk connected with the volatility of prices of financial instruments listed on the WSE. Such instruments are disclosed as financial instruments held for trading in the financial statements. The Company also holds investment certificates, which are exposed to the risk of volatility of certificate current price, but the aggregate value of the certificates is immaterial (see Note 6).

The risk related to prices of financial instruments is limited, as the Company invests only a relatively small portion of its cash in financial instruments.

Liquidity risk

The Company is exposed to liquidity risk understood as the risk of failure to meet its liabilities as they fall due. The risk is connected with a potentially limited access to financial markets, resulting in the Company's inability to raise new financing or refinance its debt. The Company's objective is to balance its liquidity position by managing its receivables, liabilities and financial instruments and by using debt financing in the form of short-term bank borrowings.

In the Company's opinion, given the significant amount of cash (PLN 23,045 thousand) held as at the end of the reporting period (December 31st 2012: PLN 28,110 thousand) (Note 1), access to credit facilities to finance the Company's operations on the WSE (Note 13), and the sound financial standing of the Company, the liquidity risk is insignificant.

Note 13 includes a table setting forth liabilities by maturity. The vast majority of the liabilities (98%) relate to transactions executed on stock exchanges, in the majority of which the Company acted as intermediary in the purchase or sale of financial instruments on behalf of its clients. Thus, a liability under a stock exchange transaction is to a large extent offset by a transaction generating receivables. As at December 31st 2013, the balance of stock exchange transactions (receivables vs. liabilities) stood at PLN 3,963 thousand (December 31st 2012: PLN 4,576 thousand). Transactions executed on the WSE may be financed with proceeds from the available credit facilities. In view of the foregoing, the liquidity risk is considered low.

Tax settlements and other regulated areas of activity are subject to inspection by administrative authorities, which are authorised to impose fines and other sanctions. As there is no possibility of referring to an established regulatory framework in Poland, the applicable regulations often lack clarity and consistency. Frequent discrepancies in opinions concerning the legal construction of tax regulations, both between different governmental agencies, and between governmental agencies and enterprises, create areas of uncertainty and conflict. Consequently, tax risk in Poland is substantially higher than in countries with more mature tax systems.

Tax settlements are subject to inspection for five years from the end of the year in which the respective tax was paid.

As at the date of preparation of these financial statements, no final decision had been taken by the Management Board concerning the recommended distribution of the 2013 profit. Any relevant decisions will be taken at a later date, however not later than by the date of convening of the Annual General Meeting, which pursuant to the Commercial Companies Code must be held within six months from the end of a given financial year.

Note 45

Liabilities secured with the brokerage house's assets:

Both in 2013 and 2012, the Company's assets were used as security for working capital overdraft facilities (see Note 13).

As at December 31st 2013, save for a security deposit of PLN 4m in a bank account, blank promissory notes with promissory note declarations, powers of attorney over bank accounts held with the lending bank (securing an overdraft facility), and security deposits securing guarantees (see Note 46), the Company also paid in a security deposit of PLN 1m to secure settlement of transactions executed on foreign stock exchanges.

Note 46

Contingent liabilities and assets, including guarantees and sureties provided, underwriting agreements, liabilities under promissory notes:

In 2014, the Company will incur a cost of up to CZK 1,650 thousand, or PLN 250 thousand, (against CZK 2,550 thousand, or PLN 342 thousand, posted as at December 31st 2012) under an agreement with the clearing bank in the Czech Republic if the minimum amount of transactional costs specified in the agreement is not reached, which is a condition for incurring that cost.

In the period covered by these financial statements, the Group carried contingent liabilities under lease agreements. The Company leases office space under a lease agreement. The right to use the building for the term of the agreement was classified by the Company as operating lease. The lease agreement providing for the right to use the building was executed for a period of five years, with an option to extend its term for another two years.

Minimum lease payments are presented in the table below.

Lease liabilities	Dec 31 2013	Dec 31 2012
	Present value of minimum lease payments	
Within 1 year	1,390*	1,371*
Within 1 to 5 years	5,562*	5,483*
Over 5 years	1,446*	2,793*
Total lease liabilities	**8,398**	**9,647**

** Value calculated by recognising the cost on a straight-line basis over the lease term.*

In addition to the above, the Company also issued promissory notes as security for a credit facility (for a detailed description see Note 13), and paid a deposit of PLN 1m as security for the settlement of transactions on foreign stock exchanges.

In January 2012, Nordea Bank Polska S.A. issued a guarantee to IPOPEMA Securities S.A. up to the total amount of EUR 268 thousand, secured with a cash deposit of PLN 1,239 thousand. Under an annex executed in 2014, the guarantee amount was increased to EUR 273 thousand. The guarantee, provided until April 15th 2018, secures liabilities related to the lease of new office space.

In April 2012, BRE Bank S.A. provided a guarantee in respect of the Company's liabilities for the benefit of the Hungarian Branch of Deutsche Bank AG, which is IPOPEMA Securities S.A.'s clearing bank for transactions executed on the Budapest Stock Exchange. The guarantee was issued for the amount of EUR 2.5m, and secures the Company's timely payment of its liabilities towards Deutsche Bank arising in connection with the services provided by the Bank, consisting in settlement and clearance of BSE transactions. Under amendments made to the guarantee agreement on March 26th 2013, the guarantee was extended until April 1st 2014, with its effective term expiring on July 1st 2014 in the particular cases specified in the agreement. The guarantee is secured by a PLN 2.5m security deposit.

Note 47

Security granted:

In the periods covered by these financial statements the Company did not grant any security.

Note 48

Amount and reasons for impairment losses on property, plant and equipment:

In the periods covered by these financial statements the Company did not recognise any impairment losses on property, plant and equipment.

Note 49

Income, expenses and profit (loss) on discontinued operations or operations intended to be discontinued:

In 2013, the Company did not identify any discontinued operations. Accordingly, all information presented in the 2013 financial statements relates to continuing operations. In 2012, asset management services were transferred from the Company to IPOPEMA Asset Management S.A., which is the centre of such services within the IPOPEMA Securities Group. Revenue, costs and results related to the asset management business conducted at IPOPEMA Securities S.A. did not have a material bearing on the Company's revenue and results, as asset management revenue accounted for less than 1% of the Company's total revenue for 2012.

Note 50

Production cost of tangible assets under construction and tangible assets for own needs:

In the periods covered by these financial statements the Company did not incur any production cost of tangible assets under construction or tangible assets for own needs.

Note 51

Extraordinary gains and losses:

In the periods covered by these financial statements the Company did not carry any extraordinary gains or losses.

Note 52

Information on income tax on extraordinary gain (loss):

In the periods covered by these financial statements the Company did not carry any extraordinary items.

Note 53

Future income tax liabilities:

In the periods covered by these financial statements the Company did not carry any future income tax liabilities.

Note 54

Items of the statement of cash flows

Breakdown of the Company's activities as assumed for the statement of cash flows:

Operating activities – provision of brokerage and consultancy services, acting as market maker to perform tasks related to the organisation of the regulated market, acquisition and disposal of securities in the capacity of a dealer.

Investing activities – purchase and disposal of intangible assets, property, plant and equipment and non-current securities.

Financing activities – acquisition or loss of sources of financing (changes in the amount of and relation between equity and external capital at the entity) and any related monetary costs and benefits.

Structure of cash

	Presentation in the balance sheet		Presentation in the statement of cash flows	
	Dec 31 2013	Dec 31 2012	Dec 31 2013	Dec 31 2012

4. Cash equivalents (deposit for a period exceeding three months)	-	4,090	-	-
5. Accrued foreign exchange differences	-	-	275	258

The difference between the presentation of cash in the statement of financial position and the statement of cash flows in 2013 is attributable to the elimination of the effect of foreign exchange differences on cash, and in 2012 – to the recognition of a long-term deposit of PLN 4m (maturing in more than three months from the balance-sheet date) under investing activities, and elimination of the effect of foreign exchange differences on cash.

The item 'Cash and cash equivalents at end of the period' comprises the Group's own and its clients' cash and cash equivalents − for more information on the structure of cash see Note 1.

Differences in changes in balance-sheet items

	Presentation in the balance sheet		Change as shown by the balance sheet	Presentation in the statement of cash flows – change

Provisions (net of deferred tax related to equity and provision for unpaid interest)	5,348	6,610		- 1,262
Total change in impairment losses and provisions				**- 2,591**

The difference between the balance-sheet change in gross receivables and the amount disclosed in the statement of cash flows is attributable to the reduction of receivables as at December 31st 2012 by the amount of receivables under loans advanced and lease receivables (non-current portion) disclosed under investing activities.

Explanation concerning other items of the statement of cash flows

Under the item 'Other cash used in investing activities', in 2013 the Company disclosed a cash deposit of PLN 1m provided as security for the settlement of transactions on foreign stock exchanges, and in 2012 a cash deposit provided as security for a guarantee extended by Nordea Bank Polska S.A.

In 2013, the Company received a dividend of PLN 1m from IPOPEMA TFI. In 2012, dividends received by the Company from IPOPEMA TFI and IBC totalled PLN 4,901 thousand. For detailed information on dividends received see Note 64.

Note 59

Incentive Scheme

On March 23rd 2009, by virtue of a resolution, the Company's Management Board adopted the Rules of the Incentive Scheme (as amended), which were also subsequently approved by the Company's Supervisory Board. The Rules were adopted as a result of a resolution passed by the Extraordinary General Meeting on December 5th 2007 (and amended by a resolution of March 20th 2009) concerning implementation of an incentive scheme for the key employees of the Company and its subsidiary, IPOPEMA TFI, as well as other persons of key importance to the execution of the IPOPEMA Securities Group's strategy. The scheme is based on Series C shares in the Company, which can be issued within the limit of conditional share capital, in a maximum number of 4,857,140 shares, on or before November 30th 2017. The scheme is equity-settled.

As part of the Incentive Scheme in place at the Company, in 2013 eligible persons subscribed for 185,714 shares under Share Option Plan II (2012: 197,321 shares).

In addition to the completed Share Option Plan I and Share Option Plan II, the Company has also granted conditional rights to subscribe for 297,522 shares by December 31st 2015. The shares are from the remainder of the Series C shares pool covered by the conditional share capital, amounting to 2,976,188 ('Share Option Plan III'). The issue price of those shares is PLN 6.01, as determined in accordance with the terms and conditions of the Incentive Scheme for Share Option Plan III as the average of Company stock prices on the WSE over a specified period. As at the date of these financial statements, the list of persons eligible to subscribe for the remainder of the Series C shares under Share Option Plan III has not yet been determined, neither have any decisions been made as to whether such shares will be offered.

The cost of the share option plans is not recognised in the separate financial statements as the Polish Accountancy Act stipulates no such requirement. However, this cost is recognised in the consolidated financial statements of the Group. In connection with the transition to financial reporting compliant with the International Financial Reporting Standards, it was necessary to account for the effect of valuation of the option plans in the Group's consolidated financial statements.

In total, on a consolidated basis, the cost of the option plans increased the cost of salaries and wages in 2013 by PLN 228 thousand; the amount was charged against IPOPEMA Securities S.A.'s profit. In the comparative period, i.e. 2012, the cost of these plans increased the cost of salaries and wages by PLN 105 thousand.

Share Option Plan II was measured using the Black-Scholes model, adjusted by continuous yield dividend and the dilution effect (decrease in the value of individual shares as a result of issuing new shares at a price below market). Share Option Plan III was measured using the binomial tree model.

Note 60

Transactions with related entities not covered by the financial statements

In the periods covered by these financial statements, there were no material transactions with related entities other than transactions disclosed in Note 58.

Note 61

Material related-party transactions other than arm's length transactions

In the periods covered by these financial statements, the Company did not enter into any material related-party transactions which were not transactions at arm's length.

Note 62

Under an agreement of July 9th 2013, the entity authorised to audit the Company's annual separate and consolidated financial statements for 2013 and to review financial statements for H1 2013 is BDO Sp. z o.o., with registered office at ul. Postępu 12, Warsaw, Poland.

Note 64

Dividends paid and proposed

In the period covered by these financial statements, the Company did not pay any dividend. As at the date of preparation of these financial statements, no final decision had been taken by the Company's Management Board concerning the recommended distribution of the 2013 profit. Any relevant decisions will be taken at a later date, however not later than by the date of convening of the Annual General Meeting, which pursuant to the Commercial Companies Code must be held within six months from the end of a given financial year.

On June 28th 2012, the General Meeting resolved to distribute the 2011 profit of PLN 15,585 thousand as dividend. The dividend amount per one share was PLN 0.52. The dividend record date was set for July 6th 2012, and the dividend payment date – for July 23rd 2012. On the dividend payment date, a total of PLN 15,471 thousand was paid out to the shareholders. The distribution amount was lower than the 2011 net profit by PLN 114 thousand, which was the effect of rounding off the dividend per share. Pursuant to the General Meeting's resolution, the difference was contributed to the Company's statutory reserve funds.

Dividend received

On May 23rd 2013, the General Meeting of IPOPEMA TFI S.A. resolved to pay dividend of PLN 1m, i.e. PLN 1 per share, which was paid out in 2013.

On November 28th 2012, the Extraordinary General Meeting of IPOPEMA Business Consulting Sp. z o.o. resolved to pay from capital reserves an interim dividend for 2012 of PLN 2.2m, i.e. approximately PLN 1,099.45 per share. The dividend was paid out in full in 2012. Based on the Company's percentage interest in the share capital of IBC, the Company received PLN 1,101 thousand in dividend.

On April 23rd 2012, the General Meeting of IPOPEMA TFI S.A. resolved to pay dividend of PLN 3.8m, i.e. PLN 3.80 per share. The dividend was paid out to the Company in full in 2012.

Note 65

Information on unconsolidated joint ventures

In the periods covered by these financial statements, the Company did not participate in any joint ventures.

Note 66

Information on court proceedings

The Company was a party to court proceedings before the Warsaw Regional Court, 14th Labour and Social Insurance Division, which were initiated on the basis of appeals lodged by the Company against decisions of the Social Insurance Institution (I Warsaw Branch) determining the base for the computation of contributions to social insurance, health insurance, Labour Fund and the Guaranteed Employee Benefits Fund, for the period from January 2009 to February 2010. In 2012, the Company filed corrected returns and recognised a provision of PLN 19 thousand for the projected amount of costs resulting from correction of settlements with the Social Insurance Institution for the years 2009-2010. As the Social Insurance Institution reversed the appealed decisions, the proceedings were discontinued.

Note 67

Inspections by regulatory authorities

In May 2013, an external inspection was carried out by the National Depository for Securities at the Company's headquarters. The inspection covered records of financial instruments, and the operation of the IT systems used to maintain the records. The Company complied with the recommendation issued by the NDS.

In 2012, an inspection covering the period from January 2009 to November 2011 was conducted at the Company by the Social Insurance Institution (ZUS). The inspection covered such issues as inclusion of the value of medical services (subscription fees for medical plans) in the base for the computation of employee social insurance contributions for the period from January 2009 to February 2010. Given that in the period covered by the inspection the line of judicial decisions concerning inclusion of such subscription fees in the base for the computation of social insurance contributions was not yet determined, the agreement between the Company and the medical services provider effective at the time did not differentiate between subscription fees for medical services whose provision was required under the Labour Code and fees for additional services. In its decisions, the Social Insurance Institution (ZUS) included the entire amount of the fees (including fees for occupational medicine services required under the Labour Code) in the base for the computation of contributions for social insurance, health insurance, Labour Fund and the Guaranteed Employee Benefits Fund, with which the Company disagreed and appealed against the decisions to the Regional Court of Warsaw. In the course of the appeal proceedings, the Social Insurance Institution reversed its decisions.

In October 2012, an inspection was conducted at the Company by the Head of the Second Warsaw Province Tax Office in Warsaw. The inspection covered the period from January 1st 2009 to December 31st 2009 and concerned such issues as inclusion of the value of medical services under medical plans provided for employees in the employees' income and the withholding of tax payments on such income. The Company implemented the post-inspection recommendations.

Since 2010, the Company (as a regulated entity) has been subject to annual evaluation carried out by the Polish Financial Supervision Authority as part of the Supervisory Review and Evaluation Process (SREP).

In 2013 and 2012, the following items amounted to PLN 0:

- subordinated loans advanced to banks, other brokerage houses, foreign investment firms, credit and financial institutions, included in their equity;
- requirement with respect to exceeding the exposure concentration limit and large exposure limit.

With respect to market risk, the Company is bound only by the capital adequacy requirement for currency risk.

In accordance with the Regulation of the Minister of Finance on the scope and detailed rules for determination of the total capital adequacy requirement, including individual capital adequacy requirements, for brokerage houses and on the maximum ratio of borrowings and debt instruments in issue to the amount of capitals, dated November 18th 2009, which has been in effect since 2010, the obligation to calculate the capital adequacy requirement for fixed operating costs arises only if an entity does not calculate the capital adequacy requirement for operational risk.

Failure to meet capital adequacy requirements

In the period covered by these financial statements, the Company did not record any instances of non-compliance with the capital adequacy requirements. Information on the intended instances of exceeding capital adequacy requirements in the comparative period, i.e. 2012, is provided below.

Dates when capital adequacy requirements were not met:	Reasons for not meeting capital adequacy requirements	Was Polish FSA notified in advance that the Company may not meet capital adequacy requirements?
Dec 7 2012 Dec 10 2012 Dec 11 2012 Dec 12 2012 Dec 13 2012	Crediting of large amounts to the Company's bank accounts in connection with a public offering	Information on an envisaged intended instance of not meeting capital adequacy requirements was provided to the Polish FSA on November 20th 2012 in the MRF monthly report.

As part of its brokerage business IPOPEMA Securities S.A. acted as an offering broker in a public offering of shares. In connection with the offering, the Company's accounts were credited with a significant amount of clients' funds. The funds were held in the Company's accounts in the period December 7th - December 13th 2012. As a result, the Company's credit risk value increased and capital adequacy requirements were not met on the dates specified above. Afterwards, the Company's capital adequacy ratios fell back to a level compliant with Art. 98a.3 of the Act on Trading in Financial Instruments. The instance of not meeting the requirements was intended, and was notified in advance to the Polish Financial Supervision Authority as required by the applicable laws.

In the period covered by these financial statements, the Company did not record any instances of non-compliance with the capital adequacy requirements on a consolidated basis.
