

SFD

### 3Q22 results review

SFD reported its 3Q22 results with EBIT of PLN 3.8m and net profit of PLN 2.9m (32% and 33% below our expectations, respectively, on slightly lower sales and higher cost of external services). Below please find key highlights:

- **Revenues** came in at PLN 81.7m (+37% y/y, 1% below preliminary monthly data of PLN 82.9m). We estimate that e-commerce sales increase by 18% y/y to PLN 40m (comparable to previous quarters) and accounted for nearly half of total sales (vs. 57% share in 3Q21).
- SFD had 28 own stores (+1 q/q) and 67 franchising stores (+2 q/q) as of end-3Q22. Additionally, the company has launched its own e-commerce platform in Romania at that time.
- **Gross profit** reached PLN 29.4m (+43% y/y), implying gross margin of 35.9% (+1.5pp y/y, in line with our expectations).
- **EBIT** came in at PLN 3.8m (+32% y/y, 32% below our expectations). Operating costs amounted to PLN 77.8m at that time (vs. our estimate PLN 77.3m). Cost of salaries increased by 26% y/y to PLN 7.7m (and was 5% below our expectations), while cost of external services increased by 49% y/y to PLN 14.2m (4% above our expectations). **EBITDA** came in at PLN 4.7m (+31% y/y), implying EBITDA margin of 5.7% (vs. 6.0% reported in 3Q21).
- **Net profit** amounted to PLN 2.9m (+28% y/y, 33% below our expectations). Net financial costs amounted to PLN 0.5m.
- The company had inventory of PLN 60.0m as of end-3Q22 (+79% y/y and +19% q/q). Operating cash flow was negative PLN 5.0m vs. positive PLN 7.8m in 3Q21. Net debt amounted to PLN 21.6m (+67% y/y).
- The company expects to maintain growth rate of revenues in 4Q22 at comparable level to 9M22 (+32% y/y in 9M22 and +32% y/y growth reported already in October) and expand its activity on foreign markets based on own platforms.

*Opinion: Negative, as reported 3Q22 results were below our expectations on lower than preliminary sales and higher inflationary pressure on cost of external services, resulting in deterioration of EBITDA margin. Additionally, we point at solid increase in inventory (+19% q/q), resulting in negative operating cash flow and increase in net debt. On the other hand, we note that the company reported sound sales of PLN 28m in October (+32% y/y); however results may remain under pressure on cost inflation.*

On the order of the Warsaw Stock Exchange S.A. ("WSE"), IPOPEMA Securities S.A. creates analytical materials for the following companies: ATM Grupa S.A., Mirbud S.A., ML System S.A., OncoArendi Therapeutics S.A., PointPack S.A., SFD S.A., Synektik S.A., Fabryka Farb i Lakierów Śnieżka S.A., Ultimate Games S.A., Vigo System S.A. The WSE has proprietary copyrights to these materials. For the preparation of IPOPEMA Securities S.A. receives remuneration from the WSE. Information on the program is available on the website <https://www.gpw.pl/gpwpa>.

On the order of the Bursa de Valori Bucuresti S.A. ("BVB"), IPOPEMA Securities S.A. creates analytical materials for the following companies: Bittnet Systems S.A. and Impact Developer & Contractor S.A. The BVB has proprietary copyrights to these materials. For the preparation of IPOPEMA Securities S.A. receives remuneration from the BVB.

IPOPEMA Securities S.A. uses a number of valuation methodologies including discounted cash flows models (such as discounted operating earnings or dividend discount model), and earnings and cash-flow based models, which are often related to comparisons with selected peer companies. Cash flow models encapsulate the cash streams forecast to flow to a company, and are widely used in the investment industry. Peer comparisons factor in amongst other factors, differential growth rates, and indicate how expensive one company might appear relative to a chosen comparator. The subjective opinions of the report's author or authors, formed by their knowledge and experience, play a significant role in the valuation. Also included are assumptions on numerous economic variables, particularly interest rates, inflation and exchange rates and varying these assumptions could result in significantly different opinions. The strength of the earnings and cash flow based models is the closer attention to a company on a standalone basis, and tying the valuation to its fundamental value. The weakness of such method is the number of assumptions, which need to be adopted and resulting sensitivity to those assumptions. The peer comparisons methods are less dependent on the analyst's judgment as to the individual parameters, however the problem with this method appears when the peer comparator is over- or undervalued. Moreover, leading multiples (based on the future earnings, book values, operating profit or cash flows) include an analyst's estimate of those values.

This document was not transferred to the company prior to its publication. This document was prepared according to the author's own view, assumptions and knowledge.

Recommendations issued by IPOPEMA Securities S.A. they are valid for a period of 12 months from the date of issue, unless they are updated during this period. IPOPEMA Securities S.A. updates the issued recommendations depending on the market situation and subjective analysts' assessment. In the last 12 months IPOPEMA Securities S.A. has not prepared any recommendation concerning the company.

This document is an investment research within the meaning of Art. 36 par. 1 of the Commission Delegated Regulation (EU) 2017/565.

List of all recommendations regarding any financial instrument or issuer that have been disseminated within the last 12 months by IPOPEMA Securities S.A. is available on the website at <https://www.ipopemasecurities.pl/analizy-i-rekomendacje.p162>.

The date and the time stated on the front page is the date of the preparation of this document. The price used throughout the recommendation to calculate adequate ratios is the "last" price stated on the front page of this document.

The definitions of terms used in the document include:

NII – Net interest income – interest income minus interest expense.

Net F&C – Net fee and commission income – fee and commission income minus fee and commission expense.

LLP – loan loss provisions – an expense set aside as an allowance for bad loans.

NPL – non-performing loan – loans that are in default or close to be in default.

Cost/Income – operating expenses divided by total banking revenue.

ROE – return on equity – net income (or adjusted net income) divided by the average shareholders' equity.

ROA – return on assets – net income (or adjusted net income) divided by the average assets.

EBIT – earnings before interests and tax.

EBITDA – earnings before interests, tax, depreciation and amortization.

EPS – earnings per share – the net income (or adjusted net income) divided by the number of shares outstanding.

P/E – price to earnings ratio – price divided by earnings per share.

PEG – P/E ratio divided by the annual EPS growth, usually over a certain period of time.

CAGR – compound annual growth rate.

BVPS – book value per share, the book value of the Company's equity divided by the number of shares outstanding.

P/BV – price to book value - price divided by the BVPS.

DPS – dividend per share – dividend of a given year divided by the number of shares outstanding.

DY – dividend yield – dividend of a given year divided by the current price.

DDM – dividend discount model – a fundamental method of valuation based on the assumption that the value of stock equals the sum of all discounted future dividends.

FV – Fair Value, calculated based on valuation methods outlined in the document.

The author of this document has no conflict of interest with the company that is the subject of this document.
