- (2) *Automatic Early Redemption:* If an Early Redemption Event has occurred the Securities will be automatically early redeemed on the immediately following Early Payment Date (k) by payment of the respective Early Redemption Amount (k) on the respective Early Payment Date (k) pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount, Early Redemption Amount

- (1) *Redemption Amount:* The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:
 - If no Barrier Event has occurred the Redemption Amount corresponds to the Maximum Amount.
 - If a Barrier Event has occurred, the Redemption Amount is specified according to the following formula:
$$\text{Redemption Amount} = \text{Nominal Amount} \times R (\text{final}) / \text{Strike}.$$

However, in this case the Redemption Amount is not greater than the Nominal Amount.
- (2) *Early Redemption Amount:* The Early Redemption Amount (k) for an Early Payment Date (k) is specified in § 1 of the Product and Underlying Data.

§ 5

Issuer's Extraordinary Call Right

Issuer's extraordinary call right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount.

Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the tenth Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 30 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 31st Banking Day, taking into account the financial position of the Security Holders.

If within these 30 Banking Days traded Derivatives of the Underlying expire and are settled on the Determining Fu-

tures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Index Concept, Adjustments, Replacement Underlying, New Index Sponsor and New Index Calculation Agent, Replacement Specification

- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB). Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities shall regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Underlying:* In cases of an Index Replacement Event or an Index Usage Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.
- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed to refer to the New Index Calculation Agent.
- (5) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent,

as the case may be, pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

- (6) The application of §§ 313, 314 BGB remains reserved.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business areas like the real estate and financial investment business activities of HVB Group could have an adverse impact on HVB Group's profitability and financial position.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank as well as risks from unexpected negative changes in the business volume and/or margins (that are not attributed to other risk types) could result in potential losses and/or a reduction of the fair value of the bank.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group and its financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. It can be expected that the global spread of the coronavirus will significantly slow down global economic growth in the first half of the year. It is also possible that the burden will last longer depending on the course of the pandemic.

Automatic early redemption on the Early Payment Dates (k)

The Securities will be redeemed early on the relevant Early Payment Date (k), if an Early Redemption Event occurs. In this case, the Security Holder receives the respective Early Redemption Amount (k) on the respective Early Payment Date (k).

An Early Redemption Event means that the Reference Price on the respective Observation Date (k) is equal to or greater than the Early Redemption Level (k).

- (B) A Barrier Event has occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Nominal Amount by a quotient. The quotient is formed by dividing the Final Reference Price by the Strike.

If a Barrier Event has occurred, the Redemption Amount will not be greater than the Nominal Amount.

Additional definitions and product terms

Barrier means the product of the Barrier Level and the Initial Reference Price.

Barrier Event means that the Final Reference Price is lower than the Barrier.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Barrier Level	Strike Level	Maximum Amount	Initial Observation Date	Final Observation Date	Final Payment Date
Closing price	75%	100%	PLN 1,285.00	01.03.2021	27.02.2026	06.03.2026

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, the calculation of the Underlying is discontinued and no suitable replacement underlying is available).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, a change to the relevant index concept).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading has been made and no such application is intended. However, application to listing is expected to take place on 18.03.2021 on the following exchanges, markets and trading systems: Warsaw Stock Exchange (ETP segment)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Underlying: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.

Jakie są kluczowe ryzyka właściwe dla Emitenta?

Ryzyka związane z sytuacją finansową Emitenta: Ryzyko, że Grupa HVB nie będzie w stanie wywiązać się ze swoich zobowiązań płatniczych w terminie lub w całości, lub w razie potrzeby uzyskać wystarczającej płynności, jak również, że

płynność będzie dostępna jedynie przy wyższych stopach procentowych, a ryzyko, że bank będzie w stanie upłynnić aktywa na rynku jedynie po obniżonej cenie może stworzyć problemy z płynnością finansową dla HVB Group, a przez to spowodować ograniczoną zdolność do finansowania swojej działalności i spełnienia minimalnych wymogów dotyczących płynności.

Ryzyka związane ze specyfiką branży Emitenta: Ryzyka wynikające z normalnej działalności biznesowej Grupy HVB, które wiążą się z ryzykiem kredytowym w działalności kredytowej, ryzykiem rynkowym w działalności handlowej, jak również z ryzykiem z innych obszarów działalności, takich jak działalność w zakresie nieruchomości i inwestycji finansowych grupy HVB, mogą mieć negatywny wpływ na rentowność i sytuację finansową grupy HVB.

Ogólne ryzyka związane z działalnością Emitenta: Ryzyko związane z nieodpowiednimi lub nieudanymi procesami wewnętrznymi, systemami i błędami ludzkimi lub ze zdarzeniami zewnętrznymi, spowodowane negatywnymi reakcjami udziałowców w związku ze zmienionym postrzeganiem banku, jak również ryzyko związane z nieoczekiwanymi, negatywnymi zmianami wolumenu działalności lub marż (które nie są przypisane do innych rodzajów ryzyka), może skutkować potencjalnymi stratami lub obniżeniem godziwej wartości banku.

Ryzyko prawne i regulacyjne: Zmiany w otoczeniu regulacyjnym i ustawowym HVB mogą spowodować wzrost kosztów kapitałowych i wzrost kosztów związanych z wdrożeniem wymogów regulacyjnych. W przypadku braku zgodności z wymogami regulacyjnymi, przepisami (podatkowymi), regulacjami, przepisami ustawowymi, umowami, obowiązkowymi praktykami i normami etycznymi, może to mieć negatywny wpływ na postrzeganie HVB Group przez opinię publiczną i jej sytuację finansową.

Ryzyko strategiczne i makroekonomiczne: Ryzyko wynikające z niewłaściwego lub niedostatecznie wczesnego rozpoznania przez kierownictwo istotnych zmian lub tendencji w otoczeniu banku oraz ryzyko wynikające z negatywnego rozwoju sytuacji gospodarczej w Niemczech oraz na międzynarodowych rynkach finansowych i kapitałowych może mieć negatywny wpływ na aktywa, pasywa, sytuację finansową oraz wynik finansowy Grupy HVB. Można się spodziewać, że globalne rozprzestrzenianie się koronawirusa znacznie spowolni globalny wzrost gospodarczy w pierwszej połowie roku. Możliwe jest również, że obciążenie to będzie trwało dłużej, w zależności od przebiegu pandemii.

Nadzwyczajne prawo do umorzenia: Emitent ma prawo do nadzwyczajnego umorzenia Papierów Wartościowych po godziwej wartości rynkowej Papierów Wartościowych, po wystąpieniu określonych Zdarzeń Wezwania (na przykład, zaprzestania obliczania Instrumentu Bazowego i braku dostępności odpowiedniego zastępczego instrumentu bazowego).

Prawo do korekty: Warunki Emisji Papierów Wartościowych mogą zostać skorygowane przez Agenta Obliczeniowego, jeżeli nastąpi Zdarzenie Korekty (na przykład, zmiana koncepcji odnośnego indeksu).

Status Papierów Wartościowych: Zobowiązania wynikające z Papierów Wartościowych stanowią bezpośrednio i niezabezpieczone zobowiązania Emitenta i mają pierwszeństwo na równi z wszystkimi innymi niezabezpieczonymi i niepodporządkowanymi zobowiązaniami Emitenta. W przypadku uchwały (umorzenia lub konwersji długu), Papiery Wartościowe będą, w ramach kaskady zaspokajania zobowiązań, rozpatrywane tylko po wszystkich nieuprzywilejowanych zobowiązaniach Emitenta.

Jakie są kluczowe ryzyka właściwe dla Papierów Wartościowych?

Szczególne czynniki ryzyka związane z Papierami Wartościowymi, które zdaniem Emitenta są istotne, zostały opisane poniżej:

Ryzyko związane z pierwszeństwem i rodzajem Papierów Wartościowych w przypadku upadłości Emitenta: Posiadacze Papierów Wartościowych ponoszą ryzyko niewypłacalności Emitenta. Ponadto, Posiadacze Papierów Wartościowych mogą zostać objęci środkami naprawczymi zastosowanymi w stosunku do Emitenta w przypadku upadłości lub prawdopodobieństwa upadłości Emitenta.

Ryzyko szczególne związane z profilem wykupu Papierów Wartościowych: Istnieje szczególne ryzyko, że cena Instrumentu Bazowego spadnie i w konsekwencji Posiadacz Papierów Wartościowych poniesie znaczną stratę zainwestowanego kapitału. Całkowita strata jest możliwa. Spadek cen Instrumentów Bazowych będzie miał negatywny wpływ na Posiadacza Papierów Wartościowych, w szczególności w przypadku wystąpienia Przypadku Naruszenia Bariery.

Ryzyka wynikające z Warunków i Zasad Papierów Wartościowych: Posiadacze Papierów Wartościowych ponoszą ryzyko straty w przypadku umorzenia przez Emitenta Papierów Wartościowych. Papiery Wartościowe zostaną wówczas wykupione według ich godziwej wartości rynkowej. Może być ona niższa od kwoty, jaką Posiadacz Papierów Wartościowych otrzymałby, gdyby nie doszło do nadzwyczajnego umorzenia Papierów Wartościowych. Dodatkowo, Posiadacze Papierów Wartościowych

ponoszą ryzyko reinwestycji. Ponadto, Posiadacze Papierów Wartościowych ponoszą ryzyko straty w przypadku dokonania korekty Warunków i Zasad lub wystąpienia zakłóceń na rynku.

Ryzyko związane z inwestowaniem, posiadaniem i sprzedażą Papierów Wartościowych: Posiadacze Papierów Wartościowych ponoszą ryzyko, że cena rynkowa Papierów Wartościowych może podlegać znacznym wahanom w okresie ważności Papierów Wartościowych oraz że Posiadacz Papierów Wartościowych nie jest w stanie nabyć lub sprzedać Papierów Wartościowych w określonym czasie lub za określoną cenę

Ryzyko związane z Indeksami jako Instrumentem Bazowym: Papiery Wartościowe wiążą się z ryzykiem dla Posiadaczy Papierów Wartościowych podobnym do inwestycji bezpośrednich w porównywalny portfel aktywów stanowiących podstawę odpowiedniego Indeksu. Zmiany wartości Składników Indeksu w konsekwencji mają bezpośredni wpływ na cenę tego Indeksu.
